

Calcium Bentonite Clay Tips & Testimonials from Perry A~

It's Perry A~ and I am back. Though we sold the Living Clay business in 2015, I have not retired from educating people to the plethora of uses of Calcium Bentonite Clay and answering their questions (512-773-0335 perrya@perrya.com) in an effort to understand this complicated natural substance. As I promised I will maintain the free clay information website www.BentoniteClayInfo.com. Since retiring from the webinars due to ongoing increasing expenses, I am picking up the slack by sending tips, articles, suggested protocols and new testimonials to share the magic of Bentonite Clay.

For a definitive guide to understanding and using clay I recommend my newest book *Calcium Bentonite Clay Nature's pathway to Healing – Balance, Detox, Stimulate, Alkalize*. You can order from www.TheClayBook.com or [Amazon](http://Amazon.com).

Today's Tips & Testimonials is about Dog With Cancer/Fatty Cysts

Duncan, a 50 pound retriever doodle, at age 7 had surgery to remove a cancerous lump from his groin/leg area. The vets were unable to remove all the growth and said it would come back. Sure enough in a couple of weeks it started to grow. Duncan was put on 1 TBSP hydrated clay in his breakfast with a tsp of yogurt and a tsp of pumpkin and the same at night. Within 3 weeks the lump has shrunk to almost nothing. He also had a few other lumps on his body thought to be fatty cysts and they are all gone. Now he won't eat his food without the clay mixed in it. – Kevin N.
